

WHOLLY
AVOCADO

1

The WHOLLY® AVOCADO journey begins in the grove.

2

All avocados are hand-picked, shipped and tested at our SQF Level 3 facility.

3

We carefully sort and clean our avocados.

4

And then place them in a controlled environment for perfect ripeness.

5

Made to order, our avocados are hand scooped.

6

Safely packaged.

7

And sent through our High Pressure Processing.

8

Then they're off to distribution and ready for your recipes.

9

For perfectly ripe avocados without all the work, request a sample today.
